

MULTIPLE SUBJECT TEACHING CREDENTIAL REQUIREMENTS FOR TEACHERS PREPARED IN CALIFORNIA

A Multiple Subject Teaching Credential authorizes the holder to teach in a self-contained classroom such as the classrooms in most elementary schools. However, a teacher authorized for multiple subject instruction may be assigned to teach in any self-contained classroom (preschool, kindergarten, and grades 1 through 12, inclusive, or in classes organized primarily for adults).

Individuals must contact one of the colleges or universities listed on the reverse of this leaflet for specific program requirements. Candidates for the Multiple Subject Credential who complete their teacher preparation through a Commission-approved program in California must be recommended for the credential through their college or university credentials office. Programs will vary slightly from college to college, but all programs will include specific requirements established by the Commission. The sequence of requirements is diagrammed below, then each requirement is explained in detail. Please contact the Commission, a public school district, a county office of education, or a Commission-approved college or university for application materials.

REQUIREMENTS FOR THE PRELIMINARY CREDENTIAL

1. **Education:** Completion of a baccalaureate or higher degree, except in professional education, from a regionally accredited college or university.
2. **Professional Teacher Preparation:** Completion of a multiple subject professional teacher preparation program including successful student teaching, and formal recommendation for the credential by the California college or university where the program was completed.
3. **CBEST:** Passage of the California Basic Educational Skills Test (CBEST). To pass CBEST one must obtain a minimum scaled score of 41 in each of the three sections (reading, mathematics, and writing). However, a section score as low as 37 is acceptable if the total scaled score is at least 123. See the CBEST leaflet (CL-667) for more details.
4. **Provisions and Principles of the U.S. Constitution:** Completion of a course (two semester units or three quarter units) in the provisions and principles of the United States Constitution **OR** passage of an examination in the subject given by a regionally accredited community college, college, or university.
5. **Methods of Teaching Reading:** Completion of a course in the methods of teaching reading **OR** passage (with a minimum score of 680) of the Praxis Series Subject Assessment entitled "Introduction to Teaching of Reading."
6. **Subject-Matter Competence:** Verification of subject-matter competency by one of two methods: (1) achieving a passing score on the Praxis Series Subject Assessment entitled "Multiple Subject Assessment for Teachers" (MSAT). Information about the MSAT, including passing scores and registration, are on the Verifying Subject Matter Competence leaflet (CL-674M) which may be obtained from the Commission, **OR** (2) completing a Commission-approved liberal arts subject-matter program or its equivalent and obtaining a verification of completion from the authorized person in the education department of a California college or university with an approved program.

REQUIREMENTS FOR THE PROFESSIONAL CLEAR CREDENTIAL

Formal Recommendation from a California College or University: In order to obtain the professional clear credential, the applicant must secure the recommendation of a California teacher preparation institution with a Commission-approved program and apply through that institution for the Professional Clear credential. California-prepared applicants may not apply directly to the Commission for the professional clear credential. The Commission advises that candidates contact one of the colleges or universities listed below for specific requirements for recommendation prior to undertaking completion of the requirements listed here to ensure that course work taken to meet these requirements is acceptable to the recommending institution. The preliminary credential is issued for a maximum of five years. If requirements for the professional clear credential are not completed before the expiration date of the preliminary, the holder will be unable to teach in the public schools of California on that credential until those requirements are met and the document renewed.

7. **Fifth Year of Study:** A fifth year of study consists of 30 semester units beyond the bachelor's degree in a defined field of study designed to improve the teacher's competence and skills. This fifth year course of study must be approved by a California teacher preparation institution and may be used for one or more of the following purposes:
 - (a) additional subject-matter preparation including, but not limited to, pursuit of a master's or higher degree,
 - (b) completion of an approved program for an advanced or specialized credential,
 - (c) in-service training for which college or university credit is given, or
 - (d) study undertaken to complete an approved program of professional preparation.
8. **Health Education:** Completion of a unit requirement in health education, including, but not limited to, nutrition, the physiological and sociological effects of abuse of alcohol, narcotics, and drugs, and the use of tobacco. This requirement must include verification of training in cardiopulmonary resuscitation (CPR) which covers infant and child to adult CPR skills, plus rescue breathing and choke rescue, education risk factors, sudden cardiac arrest, and may include causes of respiratory arrest, healthy heart concept and emphasis on recognizing the symptoms of heart attack and taking action before CPR becomes necessary. CPR certification must be completed while in a teacher preparation program or while teaching on a valid credential based on a teacher education program.
9. **Special Education:** The study of and field experience in methods of delivering appropriate education services to students with exceptional needs in regular education programs.
10. **Computer Education:** Satisfactory completion of computer education course work which includes general and specialized skills in the use of computers in educational settings.

INSTITUTIONS OF HIGHER EDUCATION WITH APPROVED TEACHER PREPARATION PROGRAMS:

State Universities and Colleges

California Polytechnic State University
California State Polytechnic Univ. Pomona
California State University Bakersfield
California State University Chico
California State University Dominguez Hills
